CIVITAN GIFTS

This organization gave \$1,200 worth of playground equipment for the school yard this past summer. The club is always doing things like that.

The Pilot Club gave a movie projector and an altar set. This altar set is to be dedicated Sunday at the assembly program.

The club also sponsors the Halloween celebration, which is great fun because everybody dresses up and has a big time.

Saturday night the Chattanooga Optimists, who do a lot for Bonny Oaks residents, are holding a Christmas party at the school. Things get under way at 6 p.m. Everybody will eat at Bonny Oaks, then there will be a program at Tyner High School.

An Athens, Ga., firm this summer gave eight dozen baseball bats, and the Bonny Oaks baseball team has uniforms, too.

The Junior League furnishes money to pay the student activities director, and as part of this recreation program the boys have constructed flying models of airplanes. Arnold Campbell, principal of the school, and Bob Webb have helped the children in this work.

The Civitan Club sponsors the music programs at the school and pays a music director to work with the various student music organizations.

The Boy Scouts are in action at Bonny Oaks and the school has a troop.

Civic organizations and interested individuals furnish about half the programs and activities at the school. Such improvements as a skating rink and foundation plantings by the buildings have been provided in this way.

The list is too long to name item by item all the gifts and help the children received, but this gives a pretty good idea.
