“ I have know Pineapple since the early 90's working together at Sequoyah. He always had a smile on his face no matter what issue we were dealing with at the plant. He and I often shared how our faith intersected with the work we did at TVA. I even had the chance to renew our friendship in the last year or so while sitting in the airport at Charlotte NC. His focus was always providing for his family but honoring God in everything he did. What a real example of applying our faith while we are here on earth. Now he has received is reward and is in the presence of our God. I know the family will miss him as well as all the people he touched. I take comfort in knowing that he is resting and healed, but that I will join him one day! Love ya man, you will be missed.

I have known Danny for many years. We spent a lot of time together traveling the country together working. I have never met a better man than him. He taught me a lot about how to be a good person. I loved him like a brother and miss him deeply. My love goes out to the family.

“ I remember Danny when we were growing up and hanging around the Eaves house playing in the front yard with my brothers just being kids. He was always so nice and my parents treated Danny as one of us already with 6 kids. My parents really loved Danny and he was always there when my Dad lost his battle with cancer several years ago. I visited Danny a couple years ago and he was always smiling and loving

when I seen him. Even though I have not seen Danny in a couple of years I heard of his battles and continue praying for him. I know Pineapple will be missed by many friends and family but he is in a better place with Benny and Evelyn and no more suffering from this dreaded disease. May God bless his wife and children thru this time of suffering but a celebration one day knowing that we will see him again soon. God Bless. David and Judy and London Eaves.
